Odoo Software Developer with over **4 years of experience** designing, developing, and implementing enterprise ERP solutions using **Python** and **Odoo**. Experienced in building custom Odoo modules, automating business workflows, developing OWL components, creating QWeb reports, integrating REST APIs, and optimizing PostgreSQL databases. Strong understanding of the Odoo ORM, security, server actions, scheduled actions, and deployment on Linux environments.

Professional Experience

Python – Odoo Developer
Ahalia Group, Abu Dhabi, UAE

(May 2024 - Present)

- Developed and maintained **Odoo modules** for healthcare and enterprise operations.
 - Built business workflows using approvals, automated actions, server actions, and scheduled jobs.
 - Developed **OWL** components and customized frontend interfaces.
 - Designed **QWeb PDF** reports and dynamic report templates.
 - Integrate Odoo with **external REST APIs**.
 - Work with **PostgreSQL** for database design, optimization, indexing, and query building.
 - Configured and deployed Odoo on Ubuntu Linux
 - Build custom views, form/tree/kanban views, dashboards, and UI components.
 - Create custom views, reports, dashboards.
 - Performed unit testing, debugging, and performance optimization.
 - Working with Odoo **versions 11,14,16 and 18**.
 - Diagnose and resolve technical issues, bugs, and performance problems.
-

Python – Odoo Developer
Ahalia Group, Palakkad

(September 2022 – April 2024)

- Developed custom ERP modules based on business requirements.
 - Customization/creation of Odoo - ERP Modules according to the requirements.
 - Designed, Developed and Maintained Odoo based Modules in Python.
 - Re-use the features available in ODOO to meet the specific requirements. Designed test strategy for Leave Management System (LMS).
 - Technically supported LMS. Making proper Testing on Software before implementing it. Providing user support hand-holding and respond to queries via phone.
 - Analyzing and solving user issues related to data and processes.
 - Analyzing different user requirements and coming up with specifications applications. Performing quality assurance and Proper leadership to the Testing team.
-

Python Django-Angular Fullstack Expert Intern

Luminar Technolab, Kochi

**(November 2023
– April 2024)**

- Core Python, Advanced Python, PyCharm, Front End development, Back End Development, Django Framework, Authentication, Database Connection.
 - Django Rest Framework, Http methods, Angular, Capstone Project, Web Application
-

Education

Mahatma Gandhi University, Kottayam

- *Master of Computer Applications* 2015 – 2018
 - *Bachelor of Computer Science* 2012 – 2015
-

Technical Skills

- *Odoo 14, 16, 18*
 - *Custom Module Development*
 - *Odoo ORM*
 - *Workflows*
 - *Wizards*
 - *Server Actions*
 - *Scheduled Actions*
 - *Record Rules*
 - *Access Rights*
 - *Mail Thread*
 - *Computed Fields*
 - *OnChange Methods*
-

Programming

- *Python*
 - *JavaScript*
 - *XML*
 - *HTML*
 - *CSS*
-

Frontend

- *OWL Framework*
 - *Qweb*
 - *Dynamic Dashboards*
 - *UI Customization*
-

Database

- *PostgreSQL*
 - *Query Optimization, Schema Design*
-

Integration

- *REST API*
 - *JSON*
 - *External System Integration*
-

Deployment & Tools

- *Linux (Ubuntu)*
 - *Git, GitLab*
 - *PyCharm*
-

Certifications & Professional Development

- *Internship at Luminar Technolab - Python-Django-Angualr Fullstack Web Development* Nov 2023 – April 2024
- *Online Webinar - AI Tools workshop* Dec 2023
 - *GITEX Global* August 2025
